

NHL Metal Sign

Hardware Included: (3) Screws
(3) Anchors

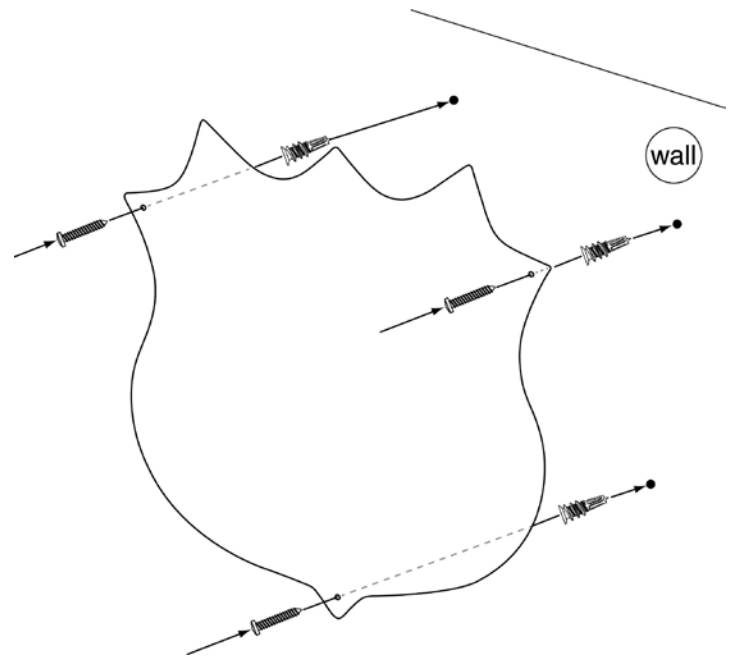

Tools Required: Phillips Screwdriver, Level, Pencil,
Stud Finder.

The hardware included with this item is meant for drywall or stud mounting only. If your wall is made from another material such as concrete or plaster, please consult your local hardware store for assistance in selecting the correct hardware.

MOUNTING INSTRUCTIONS:

This item includes three mounting holes (located at three sharp corners as illustrated below) that are used to secure the item on a wall.

1. Hold the sign at a desired mounting location on wall. Use a level to ensure that the sign is level (use the two upper holes as a reference) and then use a pencil to mark the wall through each of the three mounting holes. Remove the sign from the wall and set it aside. The remaining marks on the wall are the increment points for the mounting hardware.
2. The provided anchors cannot penetrate wood so we have to determine if any of the three marks happens to align with a wall-stud (vertical wood members located in the wall). Use a stud-finder to determine this. If any mark does align, do not install a provided anchor at this mark. When instructed to do so below, use a screwdriver to secure a provided screw at this mark.
3. For marks that do not align with a stud, install an anchor first. To do this, use a Phillips screwdriver to engage an anchor and then position the anchor tip against the wall at one of these marks. Rotate the anchor clockwise as you firmly push it into the wall. The anchor will drive itself into the wall like a large screw. Continue rotating until the wide end of the anchor becomes even with the wall. Do not over-tighten.
4. With the help of another person, reposition the sign on the wall so that the three mounting holes align with either an installed anchor or a stud mark. Use the screwdriver to secure a provided screw through each hole and into the anchor or directly into the wall. Rotate the screws clockwise until tight.

CARE INSTRUCTIONS:

Dust with soft, dry cloth. Do not use strong solvent or abrasive-based cleaners.

Thank you for your purchase!
