

Cork Framed Mirror

Parts included:

- (2) Assembly Screws
- (2) Screws
- (2) Metal anchors (For drywall only)
- (1 each) Door hanger / Hanger / Mount bracket
- (20) Push pins
- (1) Velcro stripe
- (1) Mounting Template

Mounting instructions:

(Option #1 – Mounting to a wall)

1. Hold the template at the desired location on the wall (use level to ensure the template is level). Using a pencil, mark the wall through the template at the location of the two D-rings. These marks on the wall are the insertion points for your mounting hardware.

Drywall Mounting (figure #1):

2. Place a Phillips screwdriver into recess of the anchor and position over one of your insertion point marks. Do not “push” the anchor; it is designed to bore into the wall like a drill bit. Slowly turn the anchor clockwise while applying pressure until the flange just touches the wall. Repeat for the other anchor.

NOTE: If mounting to wall studs you may skip Steps #2 and #3 and mount screws directly into the wall’s wood studs at your insertion points on the wall leaving approximately 1/2” between the back of the screw head and the wall.

3. Insert a screw into an anchor (figure #2). Leave approximately 1/2” between the back of the screw head and the anchor flange. Repeat for the other screw and anchor.
4. Mount the mirror by fitting the lower holes of the D-rings over the screw heads then slide the mirror down until the D-rings rest on the screws. You may need to tighten or loosen the screws to allow the mirror to fit snugly against the wall.

(Option#2 - Hanging on a door):

1. Place door hanger over door in desired location.
2. Determine preferred metal bracket length.
3. Hang metal bracket from door hanger.
4. Carefully hang mirror by placing pre-attached hanger over metal bracket.
5. Tape one side of the Velcro tape to the wall ensuring it aligns with the other side of the tape that is attached to the back of the mirror.

Care Instructions:

- Wipe with a soft, dry cloth only.
- Avoid cleaners or abrasives as they may damage the finish.
- To clean the mirror, spray a small amount of standard glass cleaner on a lint-free cloth and wipe.
